GEJO 18 HOOK GRAB

The GEJO 18 hook grab has become the leading grab in the market for emptying above-ground and underground waste containers.

The GEJO 18 hydraulic hook grab is electrically operated. This enables you to make the most of the functionality of the hook grab.

The GEJO 18 is equipped with hydraulic hooks for safety purposes.

The GEJO 18 hook grab comes with 24V electrical controls (excluding mounting on the crane).

Accessories: rotator, link, working light, safety catches, remote control, hoist certificate.

Type	Weight	Safe working load	Power supply	Cylinder lifting height
